

Get your CreditCard Ethernet 10/100 Upgradable for just \$99.*

It's a 10Mbps Ethernet Card.

Until you want it to be
a 100Mbps Ethernet Card.

Introducing the only 10Mbps card with a future. Why? It's upgradable. And you know what's even better? It's easy. When your company makes the move

to 100Mbps, all you have to do is add a new cable. That's it. No hassle. No worry. And the best part is they don't cost any more than the 10Mbps-only cards the other guys

sell. It's almost enough to make us feel sorry for them. Almost. For more information, give us a call at 1-800-882-4139, or visit our Web site at www.xircom.com/100h.
